

# 12-Volt Heated Seat Cushion

**The Affordable Way to 'Heat Your Seat'!**

The 12-Volt Heated Seat Cushion with HI/LO/OFF heat control warms icy seats quickly and helps to warm your back and bottom even in the coldest weather.

Enjoy the warmth, comfort and luxury of heated seats without the expense!

Plug into any 12-volt power outlet and feel the soothing warmth radiate through your seat bottom and back.

Ideal for short trips and cross-country journeys. Fabric is super-soft satin. Cushion is 3/4" thick polyester foam. Sturdy elastic straps hold cushion securely in place.

52" power cord provides enough length to reach driver or passenger. Back and edging are ultra-strong, long-lasting nylon.

- **Temperature control: HI/OFF/LO control switch**
- **Self-Adjusting Thermostat: LO 90°F / HI 120°F**
- **Fused plug guards against overheating**
- **Heated Areas: Back/lumbar and seat bottom**
- **Fits most cars, trucks, SUV's, boats and RV's**
- **90 Day Limited Warranty**

Operates from any 12-volt cigarette lighter/power outlet.

Power Consumption:  
HI 48 Watts / LO 36 Watts  
Draws between 3 and 4 Amps  
Fuse: 10 Amps
